builder platform

I'm developing a niche-specific digital ecosystem, working on bringing intuitive and transparent experience to end-users and interested parties. Overseeing development stages and testing implemented features.

Ui/Ux Designer, Co-Founder

February 2023 - May 2024
Thailand

MenuPro

Multilingual digital menu
app with video support

- Conducted comprehensive research to validate the existence of user problems and the necessity for tailored solutions, enhancing product relevance and market fit.
- User flows, wireframes, Ui's and design system.
- User experience with unique customization options, built-in marketing & remarketing features.
- Development team collaboration and testing.
- Product delivery and product marketing.

Art Executive

August 2017 - March 2022
Europe

Entrine

Fullstack digital agency

I started as a senior designer and got promoted to an art executive 1.5 years later. My job included branding & identity, Ui/Ux, leading and mentoring 3 other designers.

The agency specialized in FinTech, providing digital solutions, ranging from branding to apps and various SaaS and B2B products. Our main clients were Mastercard and multiple banks in Great Britain.

Lead Designer / Founder

2010 - 2017
Russia

BrainyLab

Digital agency

A started this local digital agency that assisted small businesses with establishing themselves in a digital realm.

The agency focused on branding / rebranding, website design and development as a single bundle service.

Freelance

2005 - 2010
Worldwide

Early years in my long design career. The time when I learned the most from my mistakes, layed the foundation, understood my strong suits and gained skills necessary to grow and become more proficient in my craft.
